Sports Floor loadings

The standard maximum loads for the Parq-Air floor system at North Shore Events Centre are:

- Area load - 1500kg/m2
- Point load - 500kg/point (measured on an area of min.100mm x 100mm)
- Loads on solid rubber wheels – 250kg/wheel. (width min. 50mm diameter, min 100mm on flat) rubber surface, hardness min 70A shore
- Loads on wheels with air tube 300 kg/wheel. (width min. 50mm diameter, min 100mm on flat)
- Bigger loads may be able to be catered for with prior approval by The Events Centre management. Load distributing sheets must be used eg. 21mm plywood.
